

PATRICK LYNCH RENEWABLES

SOLAR PV | BATTERY ENERGY STORAGE | HEAT RECOVERY

How to apply for a Solar Panel Grant with the Sustainable Energy Authority of Ireland SEAI?

Follow these steps to ensure you cover all the bases:

- 1. Contact Us:** Contact Patrick Lynch Renewables Ltd. via email or phone to schedule an on-site visit for discussing energy needs and finalizing a Solar PV installation contract.

- 2. Apply for SEAI Solar Panel Grant:**

Fill out the online grant application accurately, including your bank details. Wait for grant approval, which is valid for six months.

- 3. Choose Patrick Lynch Renewables Ltd. as Your Installer:**

Select Patrick Lynch Renewables Ltd. from the SEAI Installer List.

- 4. Coordinate with ESB:**

Patrick Lynch Renewables Ltd. will work with ESB Networks to ensure connection to the electricity grid, a process that typically takes around 4 weeks.

- 5. Begin Installation:**

Once you have the necessary approvals, Patrick Lynch Renewables can start the solar panel installation.

6. Arrange BER Assessment:

Arrange a post-installation BER assessment with a registered assessor to ensure a prompt grant payment after installing Solar PV panels.

7. Provide Documentation:

Patrick Lynch Renewables Ltd. will submit proof of work to SEAI and provide installation documentation in softcopy, with hardcopy available upon request, after receiving full payment.

8. Payment Process:

SEAI processes claims after uploading all documents and finalizing the BER certificate. Payment may need an inspection, taking 4 to 6 weeks for processing.
